

Say hello to Trubby!

Trubby is a 1 1/2-year-old pitty mix who loves to play. He likes playing with his foster mom's dogs, playing fetch, playing in water and mud...you get the idea! He's also good at entertaining himself, throwing toys into the air and chasing them all on his own.

This cutie is still learning how to adjust to new people and animals. He didn't have much exposure to new things in his previous environment, so he needs time and patience to take on new challenges. He also gets anxious around loud, active, or upset children.

Trubby loves to cuddle, give kisses, take baths, *and* get his nails done. Pretty awesome, right? He's super happy-go-lucky once he gets to know you and your pets. He's also highly intelligent, food motivated, and eager to please. Trubby is house and crate trained and can be left loose in the house during the night. He's also been practicing being out of his crate home alone for short periods.

Trubby's adoption fee has been waived for an approved applicant! Can you help this peanut find his forever home? Any children in the home must be 16 or older. He also requires a yard with a 5-foot fence since he can be such an athletic jumper when excited. If this sounds like a good fit for you, apply at graspinc.org today!
